Event Overview:

“Sci-Thon” is an exciting science and entrepreneurship challenge designed exclusively for science students passionate about innovation, problem-solving, and turning ideas into impactful ventures. This event bridges the gap between scientific research and entrepreneurial mindset, encouraging participants to develop business-oriented solutions from scientific concepts.

Event Format:

- **Idea Conception:** Participants brainstorm solutions to real-world challenges using science and technology.
- **Prototype & Business Model Development:** Teams refine their ideas, focusing on feasibility, scalability, and market potential.
- **Mentorship Sessions:** Faculty experts and entrepreneurs guide teams in structuring their ideas into viable business models.
- **Pitching Round:** Teams present their innovative ideas before a panel of judges, including entrepreneurs, faculty, and academicians.

Event Details:

- **Date:** 18th February, 2025 (Tuesday)
- **Mode:** Offline (preferably in a seminar hall equipped with projectors and microphones).
- **Duration:** Full-day Event (9:30 AM to 5:00 PM).
- **Venue:** A1 Seminar Hall
- **Target Audience:** Undergraduate and postgraduate students from all disciplines.

Who Can Participate?

Science students from all disciplines (Physics, Chemistry, Biology, Biotechnology, etc.).
Open to undergraduate and postgraduate students.
Individual or team participation (2-4 members).

Why Join?

- Learn how to commercialize scientific ideas.
- Connect with mentors, investors, and industry leaders.
- Get certificates, exciting prizes, and potential funding opportunities.

Sci-Thon is not just about innovation—it's about transforming science into startups!

Themes & Problem Statements:

1. Sustainable Science & Green Entrepreneurship

- How can we develop a biodegradable alternative to plastic that is cost-effective and scalable?
- Can we create a profitable business model for waste-to-energy solutions?
- How can scientific advancements in carbon capture be turned into a startup idea?

2. Healthcare & Biotechnology Ventures

- Can AI and biotechnology be combined to create a personalized healthcare startup?
- How can we develop a low-cost, high-impact solution for rural healthcare?
- Is there a way to turn genetic testing innovations into a scalable business?

3. AgriTech & Food Innovation

- How can we leverage hydroponics, aeroponics, or vertical farming for a startup?
- Can we create a nutrient-dense, lab-grown food product that is commercially viable?
- How can we use scientific advancements to reduce food waste profitably?

4. Space Tech & Aerospace Startups

- What business opportunities exist in low-cost satellite technology?
- Can we develop a commercial product or service using space-based data?
- How can sustainable space travel and tourism become a business?

5. AI, Robotics & Automation for Science

- Can we develop a robotic solution for lab automation that enhances efficiency?
- How can AI-driven drug discovery or material science research be commercialized?
- Can we create a low-cost AI-powered assistant for scientific research?

6. EdTech & Scientific Literacy

- How can VR/AR be used to enhance science education and become a profitable venture?
- What innovative STEM learning platforms can be developed for young scientists?

Event Schedule (9:30 AM - 5:00 PM)

9:30 AM - 10:30 AM | Inauguration & Theme Reveal

- Welcome speech by Entrepreneurship Club & Chief Guests.
- Introduction to event themes & problem statements.
- Explanation of rules, judging criteria, and expectations.

10:30 AM - 11:30 AM | Team Formation & Idea Brainstorming

- Participants form teams (2-4 members) and choose a problem statement.
- Initial brainstorming and idea submission.

11:30 AM - 12:30 PM | Business Model & Prototype Development (PPT)

- Teams start developing a proof of concept (digital model, blueprint, or simulation).
- Business Model Canvas preparation (problem, solution, market, revenue model).
- Mentors guide teams on feasibility, scalability, and impact.

12:30 AM - 1:00 PM | Mentorship & Midway Review

- Expert mentors provide feedback on initial ideas.
- Teams refine their business models & prototypes.

1:00 PM - 02:00 PM | Lunch Break

2:00 PM - 3:30 PM | Final Touches & Pitch Preparation

- Teams finalize their prototype & pitch deck.
- Last-minute refinements based on mentor feedback

3:30 PM - 4:45 PM | Final Pitch Round

- 5-minute pitch + 2-minute Q&A with a jury of entrepreneurs, investors, and professors.
- Evaluation based on innovation, feasibility, market potential, and scalability.

4:45 PM - 5:00 PM | Award Ceremony & Closing Remarks

- Winners announced and awarded cash prizes, incubation support, and certificates.
- Networking & interaction with industry experts and investors.

Prizes & Perks:

- 1) Trophy & incubation support for top ideas.
- 2) Certificates & networking opportunities with investors and industry mentors.
- 3) Potential funding & mentorship for top projects.

& Participation:

The competition will be open to undergraduate and postgraduate students from all institutions in India (Batch 2024, 2025, 2026 & 2027).

Teams will consist of 1 to 4 members from any specialization.

Participants will compete for certificates, mentorship opportunities, and potential incubation for their ideas.

Theme: Where Science Meets Entrepreneurship!**Resources Required:**

Venue: AI Seminar Hall with IT and Wi-Fi and charging support.

Stationery: Paper and Pen (Team Name and Theme)

Facilitators/Mentors: Experienced professionals in science, entrepreneurship, business development, and technical domains.

Marketing: Posters, social media campaigns, and outreach to Class Representatives.

Expected Outcomes:

- 1) **Innovation-Driven Business Ideas** – Participants will develop science-based startup ideas with real-world applications.
- 2) **Prototype & Business Model Development** – Teams will create a working prototype and a structured business model.
- 3) **Industry Exposure & Mentorship** – Experts will provide feedback, helping students refine their solutions and understand commercialization.
- 4) **Opportunities for Funding & Growth** – Top teams may receive incubation support, funding opportunities, and networking with investors.

REPORT OF THE EVENT:

The **Sci-Thon**, held on 18th February 2025 at **A1 Seminar Hall**, was an engaging and dynamic event that brought together students and faculty to explore innovation and scientific ideation. Organized by the **Chandigarh University Entrepreneurship Club** in collaboration with the **Department of Biotechnology-UIBT**, the event aimed to foster creativity, problem-solving, and entrepreneurial thinking in science and technology.

The event featured **interactive sessions**, **brainstorming activities**, and **innovation challenges**, providing participants with an opportunity to present ideas, develop solutions, and receive constructive feedback. A major highlight was the Innovation Challenge, where students tackled real-world problems using scientific and technological approaches. Participants collaborated in teams, exchanging ideas and refining their concepts with guidance from experts.

The event encouraged networking, hands-on learning, and interdisciplinary collaboration, making it a valuable experience for all attendees. With active participation, thought-provoking discussions, and a vibrant exchange of ideas, **Sci-Thon** successfully promoted a culture of scientific exploration and innovation, leaving a lasting impact on students eager to advance in research, technology, and entrepreneurship.

(like the people who had already approached before were given preferences and extra time than the new commers.)	Unnecessary interruption should not be done during the pitching, by the panelists and the crew team. there's a specific time for the questioning part and for pitching, both things should not be involved together.
2/18/2025 16:12:28	kourminal@gmail.com	Minal Kour	23BCS10973	BE CSE	The only thing that bothered me was that special attention and focus was given to people to had earlier pitched their ideas in a previous event to certain panelists. I believe that should be avoided and evaluation of any idea should be done purely on current basis. Few teams were specifically disturbed continuously whereas some weren't, rules should be fair and equal for all.	I believe these things should be avoided which were mentioned in the feedback. Also the mentorship lacked individual attention to the projects.

2/18/2025 17:15:37	sachdevavineet2005@gmail.com	Vineet Sachdeva	23BCS13089	BE-CSE	It was such a toxic event where judges made mockery of projects. We as a team represented our project in IIT Roorkee and bagged 3rd position. And here we are being made jock. Is this a hackathon? The panelist.. the way they responding... Is this a way A literate person talks? Very informal and kiddish. We also organised events but these kind of hackathon...ufffff.... I am not that much worthy to judge the panelist. But ya as feedback judges should behave formally and be unbiased + don't make mockery of people and respect their projects. Very disheartening and as a coordinator of 2nd year CSE competitions I will not suggest my peoples to attend such kinds of hackathons.	Improve panel for judgement.
