Executive Summary:

The Telescope Workshop is a hands-on and immersive event for the CAB delegates of Chandigarh University. During this workshop, participants will have the opportunity to learn the fundamentals of telescope operation and maintenance. They will gain practical skills in setting up and calibrating telescopes and understanding the basic principles of astronomical observation. This workshop provides a unique chance to explore the mysteries of the night sky.

Participants will also discover tips and techniques for better stargazing and how to navigate the cosmos effectively using telescopes. Whether you're a beginner looking to start your journey in astronomy or an experienced enthusiast seeking to enhance your telescope skills, this workshop promises to be an engaging and enlightening experience. Join us for a night of celestial wonder and expand your horizons in the world of astronomy!

Report of the Event

The Chandigarh University Astronomy Club and the Department of Aerospace Engineering hosted a special telescope session on March 23rd, 2025, at the B4 Block terrace. This edition of the workshop held unique significance, as it was attended by Dr. Shankar Venugopal, Vice President at Mahindra & Mahindra and a delegate from the Change Advisory Board (CAB), who was impressed by the university's telescope infrastructure and joined the session to gain hands-on experience in astronomical observation.

Objectives:

The objective of the Telescope Workshop for the Change Advisory Board (CAB) was to provide hands-on exposure to the fundamentals of telescope operation and astronomical observation. The session enhanced understanding of telescope setup, calibration, and celestial tracking. Attendees including Dr. Shankar Venugopal, Vice President at Mahindra & Mahindra also explored the Stellarium app and gained practical insight into space science while nurturing their curiosity for the cosmos.

Summary:

The heart of the event was the hands-on telescope session, where participants—including Dr. Shankar Venugopal and students from KCC actively engaged in observing celestial bodies

using the Dobsonian and Meade telescopes. Guided by Astronomy Club members and Aerospace students, the group explored the night sky and observed objects like Jupiter, star clusters, and the Orion Nebula. The interactive nature of the session, combined with real-time use of tools like Stellarium, made the experience both educational and captivating, showcasing the university's commitment to practical learning and scientific exploration.

Student Attendance:

8	SAKETH	22BAS10015	Bachelor of Engineering-Aerospace	6
9	Kedarisetti Pramoda	22BAS10136	Bachelor of Engineering-Aerospace	6

Conclusion:

The workshop proved to be a resounding success, fostering curiosity, scientific engagement, and meaningful exchange between academia and industry. The workshop not only allowed participants to explore the cosmos through guided observations but also facilitated insightful discussions with professionals like Dr. Shankar Venugopal and students from KCC. The event's success was a testament to the dedication and coordination of the Chandigarh University Astronomy Club and the Department of Aerospace Engineering. Everyone expressed their gratitude to all participants and guests for making the evening memorable, and they look forward to hosting more such experiences to fuel a lasting passion for astronomy and space science within the university community.

Feedback Analysis:

The CAB delegates expressed satisfaction with the workshop, appreciating the hands-on experience, smooth coordination, and the team's expertise. They found the session both insightful and engaging.
