Subject: AlgoArena- Battle of the Coders : A Coding Competition by DroidLinX

We are pleased to invite you to **AlgoArena**, a **dynamic coding competition** organized by **DroidLinX**, designed to push the boundaries of your **problem-solving and debugging skills**. The event will be held on **5th March 2025** from **09:20 am – 04:25 pm**, in the **Block B4 Seminar Hall**.

This competition aims to provide students with an **engaging platform to demonstrate their coding capabilities** through three intellectually stimulating rounds:

- ✓ **Round 1 – Quiz Round:** A **technical MCQ round** to assess fundamental CS and programming knowledge.
- ✓ **Round 2 – CodeCraft:** **Solve DSA-based problems** after clearly explaining your logic to the panel.
- ✓ **Round 3 – Debug It Out:** Spot and **fix errors in pre-written code** within a time limit.

Participants will gain **experience in logical reasoning, on-the-spot thinking, and code debugging—skills** crucial for technical interviews and coding contests.

All students passionate about **competitive programming and problem-solving** are encouraged to participate and make the most of this exciting opportunity.

For further details, please visit your CUIMS account.

AlgoArena: Battle of the Coders

AlgoArena: Battle of the Coders is a one-day, **multi-round coding competition** curated for aspiring developers and problem-solvers. Organized by **DroidLinX**, this event is designed to challenge students with a series of **intellectually stimulating tasks** that test their **conceptual clarity, coding skills, and debugging abilities** under pressure.

The competition unfolds in three exciting rounds:

- **Quiz Round** – A **technical MCQ session** to evaluate core Computer Science and programming fundamentals.
- **CodeCraft** – A logic-first round where participants must explain and **implement solutions to DSA-based problems**.
- **Debug It Out** – A fast-paced debugging challenge **to identify and correct errors** in pre-written code.

Participants will sharpen their skills in **algorithmic thinking, logical reasoning, and code correction**—preparing them for real-world technical interviews and coding contests.

Objectives:

The **AlgoArena** competition aims to provide a comprehensive platform for students to:

-Strengthen their grasp on fundamental programming and computer science concepts.

- Improve their approach** to data structures and algorithmic problem-solving.
- Develop clear and structured logic** explanation skills under evaluation.
- Enhance their debugging speed and precision** in real-world code scenarios.
