

CIRCULAR

The Ramanujan Club from the Department of Mathematics is organizing an **Open PPT and Presentation Competition on 21st August 2024**, from 2:00 PM to 4:30 PM at the A2 Seminar Hall, Chandigarh University.

This event invites students from all disciplines to showcase their knowledge, creativity, and presentation skills by exploring topics related to mathematics and its applications. Whether it's pure math, applied math, mathematical models in real-world scenarios, or interdisciplinary connections, participants are encouraged to think beyond the classroom and present their ideas with clarity and innovation.

The competition aims to foster analytical thinking, confidence in public speaking, and academic curiosity, while providing a platform to gain recognition and constructive feedback.

Top presentations will be awarded on the same day, and select participants may be offered opportunities to present at future Ramanujan Club or university-level events.

- Unleash your ideas. Make math meaningful. Present to inspire.

For more details, please visit your CUIMS account.

Sample Topics

for overview

1. Fibonacci Sequence: Origin, Definition, and Applications

Why : The Fibonacci sequence has a broad range of applications, from nature to financial markets, making it a fascinating topic that can be both visually engaging and mathematically deep.

2. Prime Numbers: Importance in Cryptography and Beyond

Why : Prime numbers are crucial in modern cryptography, which is a topic of significant relevance in today's digital world. It's a great way to connect mathematics with real-world technology.

3. Euler's Number (e): Its Significance and Applications

Why: Euler's number is central to many areas of mathematics, including calculus, finance, and natural phenomena. Its importance and applications make it a versatile topic.

4. The Golden Ratio: Mathematics in Nature and Design

Why: The Golden Ratio's presence in art, architecture, and nature makes it a visually appealing and intriguing topic for a presentation, appealing to both mathematical and non-mathematical audiences.

5. Pi (π): Its Role in Geometry and Beyond

Why : Pi is one of the most recognized mathematical constants and has applications in geometry, trigonometry, and physics. It's a timeless topic with universal appeal.

6. Complex Numbers: Their Utility in Real-World Physics and Engineering*

Why: Complex numbers are fundamental in advanced fields like electrical engineering and quantum physics, providing practical examples of how abstract mathematics is applied in the real world.

7. Pascal's Triangle: Patterns and Applications

Why: Pascal's Triangle is rich in patterns and applications, from combinatorics to algebra. Its visual and combinatorial aspects make it a compelling topic for presentation.

8. The Square Root of 2 ($\sqrt{2}$): First Known Irrational Number

Why : The discovery of $\sqrt{2}$ as an irrational number was a milestone in mathematics. Its historical significance and role in geometry offer a deep dive into mathematical history and theory.

9. Benford's Law: Financial Application

Why : Benford's Law is an intriguing statistical phenomenon with practical applications in detecting fraud, making it a relevant and surprising topic for audiences interested in data science and finance.

10. 1089 (A Magic Number)

Why : The number 1089 is a classic example of a mathematical trick that always works, making it an engaging and fun topic. It also illustrates fundamental properties of numbers, which can be a hit with the audience.

Thank you!

2) Event Objectives:

- a) Learn more about Ramanujan Club and its mission.
- b) Opportunity to join/ explore different MAGIC NUMBERS in mathematics.
- c) to conduct an open contest where the participants could present their ideas on the theme, 'Playing with magic numbers', through their presentations.
- d) The motive of the contest was to present an opportunity to the interested members of the club to enhance their presentation and speaking skills.
- e) Opportunity to meet the core team.
- f) Details on forthcoming events and projects.
- g) Membership registration.
- h) Connecting and interacting with fellow members.

3) Brief Summary (in 100-200 words) :

The Ramanujan Club hosted a dynamic event centered around its mission and the intriguing world of MAGIC NUMBERS in mathematics. The event provided attendees with a deep dive into the club's objectives, including an opportunity to join and explore various mathematical concepts. A highlight of the event was the open contest themed 'Playing with Magic Numbers,' where participants showcased their ideas through presentations, honing their speaking and presentation skills. Attendees had the chance to meet and interact with the core team, gaining insights into the club's future events and projects. Membership registration was open throughout, allowing students to become part of the growing community. The event also fostered connections among members, encouraging interaction and collaboration. This successful gathering laid a solid foundation for the Ramanujan Club's future endeavors, combining learning, creativity, and community building.

MINUTES OF MEETING: DETAILS

1. Held by department: Mathematics
2. Event name: Open PPT Contest
3. Event type: Open competition
4. Date: 21st Aug 2024
5. Venue: Seminar hall, Block A3
6. Time: 2pm-4pm
7. Activities: PPT Presentation

OBJECTIVE/ AGENDA:

The objective of this event was to conduct an open contest where the participants could present their ideas on the theme, 'Playing with magic numbers', through their presentations. The motive of the contest was to present an opportunity to the interested members of the club to enhance their presentation and speaking skills.

MOM (Minutes of Meeting):

1. Start time: 02:00 PM
2. End time: 04:00 PM

3. Duration: 2hr

FROM: 02:00 PM -02:20PM

DURATION: 20min

Attendance & settlement.

FROM: 02:20 PM-02:40 PM

DURATION: 20min

Registration and instruction for the event were given.

FROM: 02:40 PM-03:30 PM

DURATION: 50min

Hosting of the main event, questions were also asked by the faculties to the participants from their respective Topics.

Participants and Topics:

S.NO.	TEAM	TEAM LEADER/MEMBERS	UID	DEPT.	TOPIC
1	Samarjeet, Deepak	Deepak	23BMT70021	Maths	Pi
